

## **New Site Online!**

04/10/2009 05:15 by Admin

Well, took me about 12-14 hours, but I managed to get most of the forums and all the users switched over to the new CMS!

There WILL BE BUGS, post them in the proper forum section, also I still need to edit and re-add all of our old modules and blocks.

But the important stuff is moved and working.

Now, there is also a TON of new things, mostly in the forums and user profile areas, check them out! =]
